

7/11/2020

Swim Lesson Parents and Guardians,

This is a friendly reminder that swim lessons will be starting next week. In preparation of lessons, please be sure to take the time to look over the COVID-19 Prevention Swim lesson policies that can be found on our website. Failure to follow these policies will result in denied access to your lesson that day. We ask everyone entering the facility to wear a face covering, participants must be wearing them as they enter and exit the facility as those observing must keep them on at all times. We are only permitting one observing adult per participant, with the exception of one child ages two and under.

For those that are registered in any of the preschool or beginner youth levels, please be sure to have an adult helper ready to be in the water with the participant. An adult helper is mandatory for all of the lessons to help ensure we follow proper social distancing protocols.

All swim lesson participants will be entering through entrance one (GAC Front desk and main lobby). Observers will be seated in the mezzanine if lessons are at the recreation pool and at the grand stands if lessons are in the competition pool, no observers are allowed on the pool deck any time after greeting the instructor before and after the lesson times. Social distancing is expected for all observers.

At this time, only the recreation locker room is open and access will be limited with only 4 people max allowed at a time. We will have the family locker room accessible at the recreation pool.

Please call our front desk at 336-315-8498 or email jasmine.capegsan@greensboro-nc.gov if you have any questions or concerns.

Thank you,

GAC Management
